Chronic Health Condition Statement

A student's regular attendance at school is crucial to optimal learning. Learning opportunities that occur in the classroom are meaningful and essential components of the learning process. Time lost due to chronic absences from school is irretrievable in terms of opportunity for instructional interaction. Research tells us that missing as little as two days per month makes the child less likely to graduate.

Brooke County Schools is requesting that you verify that this student has a chronic health condition that may impact regular attendance at school. Please note that this document becomes part of the student's educational file and the educational file may be presented if requested should the student become truant and need to go before the court system. This document is not an excuse from completing required class assignments due to absences.
